

The current regulation pertaining to the do not call list will allow an agent to call his client only up to 18 months after the original application. How can we call and question our clients on their renewals, claims, or any other service work after the 18 months. Not to be able to contact our own insureds who buy a service from us is not only a disservice to our clients but a possible e & o claim to our agency. Please reconsider the current law to allow us to contact our own clients to provide them the service they pay for and deserve.

Thank you and God Bless
Gerald Franson
